

Live In-Person Activity

American Red Cross Pediatric Advanced Life Support (PALS) Course

Starts 13 JAN 2020

COURSE OVERVIEW

The American Red Cross Pediatric Advanced Life Support (PALS) Course provides participants with the knowledge and skills they need to assess, recognize and care for pediatric patients who are experiencing a respiratory emergency, shock or a cardiac emergency. The course emphasizes providing high-quality patient care by integrating psychomotor skills, rhythm interpretation, electrical interventions and pharmacologic knowledge with critical thinking and problem solving to achieve the best possible outcomes.

LEARNING OBJECTIVES

1. Demonstrate high-quality basic life support (BLS) skills, including high-quality chest compressions, effective ventilations and use of an AED.
2. Apply concepts of effective teamwork when caring for a pediatric patient experiencing or a respiratory emergency, shock or a cardiac emergency.
3. Integrate advanced communication, critical-thinking and problem-solving skills when responding as part of a team to a respiratory emergency, shock or a cardiac emergency.
4. Apply a systematic, continuous approach to assess, recognize and care for a pediatric patient experiencing a respiratory emergency, shock or a cardiac emergency.
5. Effectively assess, recognize and care for a pediatric patient experiencing respiratory or cardiac arrest.
6. Quickly recognize the nature of a respiratory emergency, shock or a cardiac emergency.
7. Provide effective and appropriate pediatric advanced life support care to address a respiratory emergency, shock
8. Provide effective and appropriate care after a return of spontaneous circulation (ROSC) during a resuscitation effort.

TARGET AUDIENCE: Physicians (ACCME) Physician Assistants (AAPA) Nurses (ANCC) And other health care professionals
