Continuing Education Program Office Spotlight

To prepare our 2025 Annual Report, the CEPO team spent much of last month reflecting on the program's accomplishments in 2025. With initiatives to expand and strengthen the CE program, the year marked key achievements, including becoming a PMI Authorized Training Partner and a Jointly Accredited Provider with Commendation. By enabling CE/CME credit for more MHS-led events than ever before, CEPO awarded a total of over 100,000 CE/CME credits to healthcare professionals who care for service members, veterans, and service members' families.

Explore our website to learn more about our accrediting services and how we support education and training initiatives across MHS.
