

Strangulation Series

- This is a STANDARD series, specific injuries or findings need to be photographed with the rule of 3s
- Oral/perioral, neck, and finger swabs/cuttings PRIOR to photo series
- Use pre-lamp for oral photos
- Have patient stand against wall (if tolerated) for series
- Have patient find uvula with hand mirror
- If patient is wearing makeup take initial photographs, have patient remove makeup, and re-photograph
