Interprofessional Continuing Education (IPCE) Meeting

Join CEPO and healthcare education providers across MHS to discuss...

- Accrediting organization updates and conferences
- Continuing Education opportunities
- Veteran Health Agency CE updates
- Best practices for interprofessional continuing education
- Featured topics by guest speakers

Upcoming Dates: 08 December 2025 at 9:30 AM ET on MS Teams

To attend or be a guest speaker, email us at
dha.ncr.j7.mbx.continuing-education-office@health.mil

Are you looking to become a CEPO content reviewer?

CEPO is looking for content reviewers in the following professions who will assist with **providing a content review for a variety of continuing education (CE)/continuing medical education (CME) activities** throughout the year:

If you are interested in volunteering, please send your resume/CV to dha.ncr.j7.mbx.continuing-education-office@health.mil

A close-up photograph of a person wearing a camouflage military uniform, holding a black pen and writing on a white notepad. The background is slightly blurred, showing what appears to be a bookshelf or filing cabinet.

Physicians, Physician Associates, Nurses, Pharmacists/Pharmacy Technicians, Psychologists, Social Workers, Certified Counselors, Occupational Therapists, Occupational Therapy Assistants, Physical Therapists, Physical Therapist Assistants, Case Managers, Dentists, Dental Assistants, Dental Technicians, Kinesiotherapists, Optometrists, Speech Language Pathologists, Audiologists, Athletic Trainers, Dietitians, Health Informatics Professionals, and Healthcare Executives

Offer CE Credit at your Next Educational Event

The Continuing Education Program Office accredits
CE activities via the CE Activity Application

Education coordinators can submit an application at
<https://www.dhaj7-cepo.com/content/cepo-ce-activity-application>

For more information, please email CEPO at dha.ncr.j7.mbx.cepo-cms-support@health.mil

Clinical Communities Speaker Series (CCSS) Upcoming Activities

The CCSS events are designed to **address the professional practice gaps of learners to improve the care that health care professionals deliver**. These educational series are intended to achieve results that reflect a **change in skills, competence, and performance** of the healthcare team.

BRAIN INJURY AWARENESS

HEADS UP

- Hearing and balance injuries are common among service members
- Your hearing can be damaged by blasts, brain trauma, jet fuel, or long-term noise exposure
- You may or may not have hearing loss, so get it checked anyway
- See your doctor or hearing conservation manager for more information

Relias offers free CME courses for your profession!

Step 1. Update your professional license & certification information

Step 2. Go to the Course Library; set filters for your profession and the Preferred CEU or State licensing board name.

For example: ACCME – Accreditation Council for Continuing Medical Education; Physician

3. Enroll in and complete the desired courses

4. When completed, the course will provide a certificate of completion and CE credits from your selected board that you can email or download.

Possible courses include:

Advance Care Planning: The National POLST	0.5 CME
Crisis Management for Healthcare Professionals	0.5 CME
Treatment of Rattlesnake Bites	0.5 CME
Economic Stability as a Social Determinant of Health	0.5 CME
Emergency Burn Management	1 CME
Thoracentesis Principles	1 CME
Diabetic Foot Ulcers	1 CME
Risk Factors and Treatment Options for Bladder Cancer	1 CME
Heart Blocks, Junctional Rhythms, and STEMI	1 CME
Healthcare Fraud: What You Need to Know	1 CME
Payer Perspective: Comorbidity Management	1 CME
Acute Stroke: Understanding and Using the NIHSS	1.25 CME
Managing Mechanical Ventilation	1.25 CME
Moderate Sedation Practices	1.25 CME
Managing Peripheral Artery Disease	1.25 CME
Recognizing Misuse or Abuse of Controlled Substances	1.25 CME
Understanding Chemistry Lab Values	1.25 CME
Management of Generalized Anxiety and Related Disorders	1.25 CME
Pediatric Pain Management: Treatment	1.5 CME
Controlled Substances: Drug Diversion, SUD, and Pain Management	3.75 CME

And don't forget to download the Relias app on your phone and enroll in the courses you want to take!

Once you have logged into the app, it will take you to your enrolled courses. You can complete them anywhere, anytime! It will even allow you to email your CME certificates to your health.mil account!

Attendee Testimonials

“

Thank you for an excellent presentation and great management of the tech side. These are better CE presentations than most--very high standard and I look forward to them every time.

”

“

The training was well-organized, clear, and engaging. One of the best Zoom trainings I have attended. I enjoyed the polls and questions asked in Chat so we could participate and get more out of the training. I learned tools that I can apply right away.

”

“

Every CDP [webinar] experience has been wonderful, professional, enlightening and productive. It leaves me with something new to support others better.

DHA J-7 HIV Pre-exposure Prophylaxis for the Primary Care Manager

Computer Based Training (CBT) JKO DHA-US1318

Overview

This computer-based training/course addresses HIV pre-exposure prophylaxis for the primary care manager.

Learning Objectives:

1. Apply DHA-Procedural Instruction (PI) 6025.29 requirements and updated 2021 Centers for Disease Control & Prevention/U.S. Public Health Service Clinical Practice Guidelines recommendations.
2. Outline how to prescribe medication regimens that are proven safe and effective for HIV-negative patients who meet recommended screening criteria for PrEP initiation to reduce their risk of HIV acquisition.
3. Educate providers about HIV PrEP medications, side effects, contraindications, and Food & Drug Administration-approved regimens to maximize safe use.
4. Identify techniques to provide support for medication adherence to help patients achieve and maintain protective levels of medication in their bodies.
5. Describe HIV risk reduction techniques, prevention services, and/or infectious diseases specialist referral resources.
6. Identify recommended schedule for monitoring patients to detect HIV infection, medication toxicities, and levels of risk behavior to make indicated changes in strategies to support patients' long-term health.

Target Audience

Physicians (ACCME) • Physician Assistants (AAPA) • Nurses (ANCC) • Pharmacists/Pharmacy Technicians (ACPE) • And other health care professionals

This CE/CME activity is provided through DHA, J-7, CEPO and is approved for 1.00 CE/CME credit.

To register, participate, and complete the posttest and evaluation, please visit <https://www.dhaj7-cepo.com/content/jko-dha-us1318-human-immunodeficiency-virus-hiv-pre-exposure-prophylaxis-prep-primary-care>.

Ready Reliable Care: DHA's Journey to High Reliability

Overview

This activity will be available on JKO (DHA US1216) for all DHA personnel. The DHA's efforts to become a high reliability organization has led to the creation of the Ready Reliable Care model, which adopts the application of Domains of Change and Principles.

Learning Objectives:

1. Define the goal of high reliability and its impact on health care
2. Explain the concepts of Ready Reliable Care (RRC) and a High Reliability Organization (HRO)
3. Recall the Domains of Change and Principles of RRC
4. Describe examples of RRC Domains of Change and Principles

Target Audience

Physicians (ACCME) • Physician Assistants (AAPA) • Nurses (ANCC) • Psychologists (APA) • Pharmacists/Pharmacy Technicians (ACPE) • Social Workers (ASWB) • Healthcare executives (ACHE) • And other Defense Health Agency health care professionals earn a certificate of attendance

This CE/CME activity is provided through DHA, J-7, CEPO and is approved for 1.00 CE/CME credit.

To register, participate, and complete the posttest and evaluation, please visit <https://www.dhaj7-cepo.com/content/jko-ready-reliable-care-dhas-journey-high-reliability>.

Participation Costs

VHA WHOLE HEALTH COACHING

The virtual Whole Health Coaching course integrates principles of change theory and practice to support Veterans in realizing their health potential.

TIME COMMITMENT:

Pre-Course Orientation - 1 hr
Session 1 - 25 hrs
Between session Triad Calls - 6 hrs
Session 2 - 24 hrs
Asynchronous Learning - 5 hrs
Session 3 - 25 hrs
Post-Course Triad Calls - 6 hrs
Asynchronous Learning - 15 hrs

COURSE FORMAT:

Virtual learning (Zoom)
Class discussion
WH coaching practice
Skills practice
Small groups

*Daily tech support will be available

COURSE ACCREDITATION:

NBHCW

Participants wishing to receive CEUs and a certificate of completion required for their application for NBC-HWC certification must attend all three weeks of training (75 hrs), all 12 hours of triad practices, and all 20 hours of asynchronous training.

LEAVE WITH THE SKILLS TO:

- Assist the Veteran in developing a personalized health plan that is based on what matters most to the Veteran; the plan is based on the Veteran's own goals, values, preferences, and lifestyle. The agenda is the Veteran's.
- Partner with the Veteran with proactively taking action toward behavior change that is present and future-oriented.
- Recognize that health is much broader than the absence of disease. The emphasis is on health enhancement/strengths rather than disorders/weaknesses.
- Support the Veteran in achieving their standard of optimal health that takes into account the mental, physical, and social well-being of the Veteran.

Veterans Integration to Academic Leadership (VITAL) What to Expect From Your VA VITAL Service

U.S. Department
of Veterans Affairs

The mission of VITAL is to provide world-class healthcare to improve the overall mental health of Veterans while supporting their successful integration into college and university campuses through seamless access to VA healthcare services and on-campus clinical counseling. VITAL provides care coordination and promotes positive cohesion between Veterans and the entire learning community through campus and community education and training.

ELIGIBILITY

- Veterans who meet VHA eligibility criteria for healthcare services are eligible to receive VITAL services

CLINICAL SERVICES

- Seamless access to VA healthcare services and on-campus clinical counseling;
- Provide evidence based on-campus mental health counseling by a licensed mental health provider
- Facilitate on-campus enrollment into VA programs
- Develop individualized treatment plans and education goals with Veterans to improve successful academic and social integration
- Collaborate with existing campus mental health providers or counseling centers

CARE COORDINATION SERVICES

- Provide efficient care coordination of all available services;
- Connect Veterans with VA, campus and community resources and assist them in navigating those services to support their educational success and overall wellness.
- Educate student Veterans on benefits available to them

EDUCATION AND TRAINING SERVICES

- Promote positive cohesion between Veterans and the entire learning community through campus and community clinical education and training;
- Provide educational trainings on military culture and specific mental health topics such as PTSD, anxiety, etc., to increase awareness about student Veterans needs and strengths

For more information and a listing of VITAL program sites visit the VA College Toolkit:

<https://www.mentalhealth.va.gov/student-veteran/>

What Audiologists do to Keep You **Healthy**

- Conduct hearing exams
- Fit you with hearing protectors
- Provide hearing education & training
- Assess & treat hearing issues
- Provide consultation on noise-hazardous areas
- Monitor your hearing health

DHA Brandon Act Training for Healthcare Providers and Clinicians

JKO Training DHA-US1351 (1 hr)

Required for:

- Behavioral Health providers and clinicians, including PCBH Consultants and BH Technicians.
- Other healthcare providers who may conduct Mental Health Evaluations (e.g., Primary Care Managers)

Recommended for:

- BH Clinic admin staff (including appointing staff)

Link to training:

https://jkosupport.jten.mil/html/COI.xhtml?course_prefix=DHA&course_number=-US1351

Brandon Act Fact Sheet, implementation, and FAQ on Health.mil:

<https://www.health.mil/Military-Health-Topics/Mental-Health/Brandon-Act>

Providers and Clinicians will:

- Understand the Brandon Act and related guidance
- Differentiate among Mental Health Evaluation (MHE) Types
- Describe the pathways for SMs to obtain MHEs
- Summarize the process for scheduling and performing Self-Initiated Referrals under the Brandon act

Suicide Risk Care Pathway in the DHA

JKO Training

For Behavioral Health Specialty Care Providers: (1 hr)

DHA-US1212: Suicide Risk Care Pathway in the Defense Health Agency
(Behavioral Health Specialty Care)

For Providers in All Other Health Care Settings (1 hr):

DHA-US1214: Suicide Risk Care Pathway in the Defense Health Agency
(All Health Care Settings Other Than Behavioral Health Specialty Care)

Note: Those required to complete the training include (1) Licensed Independent Practitioners (LIPs); and (2) any supporting healthcare staff working under the licensure of an LIP (i.e., under the supervision of a healthcare provider).

There is a growing demand for leaders who are formally educated in Health Professions Education.

Institutions that desire high-quality instruction increasingly require teaching faculty and academic leaders to attain education beyond their primary professional degree, while accreditation bodies implement increasingly stringent requirements for demonstration of faculty expertise and excellence in leadership, curriculum design, instruction, assessment, and program evaluation.

Are you ready to pursue your graduate education in health professions education?

Certificates in HPE offered at USU:

- Introduction to Foundations in Health Professions Education Certificate (IFHPE)
- Foundations in Health Professions Education Certificate (FHPE)

Degrees in HPE offered at USU:

- Master of Health Professions Education (MHPE)
- Master of Education in Health Professions Education (MEd-HPE)
- PhD in Health Professions Education (PhD in HPE)

Applications, due Nov. 1, will be accepted starting Sept. 1 for programs that begin the following May. Learn more at <https://chpe.usuhs.edu>.

AUDIO DIGEST® PLATINUM

Learner's Digest
INTERNATIONAL

AudioDigest Platinum keeps you current with the most clinically relevant content, while helping you manage your individual learning and continuing medical education requirements.

- Listen to 4,000+ audio lectures from renowned speakers
- Earn CME/CE and MOC
- Access on desktop, mobile app, and Apple CarPlay

Covers 14 specialties such as: Otolaryngology | Psychiatry | Obstetrics Gynecology

Tracker feature allows you to view your transcripts, add credits outside of AudioDigest, and edit your CME/CE profile to maintain state licensure/reporting information.

There is a growing demand for leaders who are formally educated in Health Professions Education.

Institutions that desire high-quality instruction increasingly require teaching faculty and academic leaders to attain education beyond their primary professional degree, while accreditation bodies implement increasingly stringent requirements for demonstration of faculty expertise and excellence in leadership, curriculum design, instruction, assessment, and program evaluation.

Are you ready to pursue your graduate education in health professions education?

Degrees in HPE offered at USU:

- Master of Health Professions Education (MHPE)
- Master of Education in Health Professions Education (MEd-HPE)
- PhD in Health Professions Education (PhD in HPE)

Sample Coursework

- Teaching Methods
- Learning Theories
- Philosophies of Science
- Principles of Clinical Instruction
- Quantitative Methods in HPE
- Qualitative Methods in HPE
- Measurement, Assessment, and Evaluation
- Leadership Roles in HPE
- Principles of Online Instruction
- Curriculum Development

Applications, due Nov. 1, will be accepted starting Sept. 1 for programs that begin the following May. Learn more at <https://chpe.usuhs.edu>.
