

Defense Health Agency J-7 Continuing Education Program Office

Nellis Readiness Training- The Expeditionary Nurse

Live Course, July 31, 2026, Nellis Air Force Base, NV

Continuing Education (CE)/Continuing Medical Education (CME) Information

This CE/CME activity is accredited by the DHA, J-7, Continuing Education Program Office (CEPO). This activity provides continuing education for nurses. A certificate of attendance is available for other attendees.

Nellis Readiness Training- The Expeditionary Nurse (8.00 clock hours)

1045 – 2015 (ET)

Learning Objectives:

1. Define the primary purpose of triage in a Mass Casualty (MASCAL) Incident.
2. Assign acuity levels based on presenting symptoms, vital signs, and medical history.
3. Identify the recommended Calcium administration for the treatment and prevention of hypocalcemia during blood product administration.
4. Compare the three methods to administer Tranexamic acid.
5. Differentiate between the use of Low-titer O Whole Blood and type-specific Whole Blood.
6. Identify the physiological benefits of Fresh Whole Blood over component therapy in the treatment of hemorrhagic shock.
7. Perform rapid burn assessment and triage by correctly identifying and calculate the percentage of Total Body Surface Area (TBSA) burned using the Rule of Nines.
8. Implement Joint Trauma System Clinical Practice Guidelines fluid resuscitation ("Rule of 10s") for adults.
9. Differentiate between mild, moderate, and severe Traumatic Brain Injury (TBI) using the Glasgow Coma Scale (GCS) and clinical presentation.
10. Summarize hemodynamic endpoints in managing TBI patients to prevent secondary brain injuries.
11. Utilize validated assessment tools for Pain, Anxiety, and Delirium monitoring.
12. Implement multimodal strategies to manage Pain, Anxiety, and Delirium.
13. Identify casualties at risk for Airway, Ventilation, Acute Respiratory Syndrome (ARDS) and initiate a lung-protective ventilation strategy.
14. Summarize the steps to prone a patient in the management of ARDS.
